why are uppercase and lowercase letters a thing? why don't we just write in all caps or all lc.? it's basically just western languages that do this? is this another relic of our eurocentric mentality and world? if so, i reject this way of life

When it’s time for you to venture out, don’t let fear have you looking back at what you’re leaving behind.

I'd say closer to three; however, I think it's less about time and more about how much the forums have changed since you were most active

I had an old account that didn't even have a nickname in 2014. I left and no one cared, so I am pretty old, but yeah, hey buddy, you're okay!

Depends. Considering how many new forumers there are, you could call yourself old after a year, but to be actually old, like considered by others to be old, you ought to remember the beginning of 2016.

I joined early 2015 and i'm considered old, but idk what the limit to that is

Like, I'd say 2 and three quarters years, as an approximation, but crim's right in that it also depends on factors like how much change has happened and jade river has a point with new people
